Cultivating a learning community that engages the hearts and minds of students, one child at a time

October 15, 2018

Subject: **October 2018 Lawn Care Treatment Schedule and Activity**

This letter is to notify community members, District 29 Staff, and students of the lawn care treatment that will be applied during the month of October 2018. This process will be repeated every month during the growing season as a means to keep everyone informed about the application of fertilizer, herbicides, and other chemicals that are used for the upkeep of the school's ornamental garden beds, lawns, and athletic fields.

For further information on this process, go to SunsetRidge29.org, select **DISTRICT** then **BUILDINGS & GROUNDS** to find the *Integrated Pest and Lawn Care Management Program*.

Applications during the month of October 2018:

On Saturday, October 27, there will be a weed control application on the sports field at Sunset Ridge School.

Please make it a point to visit the above web page and familiarize yourself with the notification process. Please check monthly for future application dates. Feel free to contact me if you have questions.

Parents, guardians, and community members may request in writing each year that District 29 notify them prior to any applications of lawn treatment if the above method of notification (***detailed in the Integrated Pest and Lawn Care Management Program***) is not suitable or available. Please include your name, address, and telephone number or e-mail address with your written request, and indicate your preference of notification method (mail, phone, or e-mail). Individual notifications will be made at the time that this notification is posted.

Sincerely,

Corey Dreher, CPS
Director of Buildings and Grounds
Sunset Ridge School District 29
